

Dear Environment,

Please allow me to introduce ourselves – we are BK Recycling where our mantra is **BE KIND RECYCLING**.

We are a proud, 100% Australian owned company that is committed to working together with other like-minded businesses to help lead us towards a cleaner more sustainable future for you.

To achieve our goals at BK Recycling, our pledge to you is to help shape the development and education for our customers and staff, to encourage the community to strive towards a better lifestyle for everyone.

As we look forward to our children's future, we believe it is our responsibility to remain committed to creating a cleaner world for generations to come.

Looking forward to making this possible together.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Glynn Sheppard'.
